

PUBLIC INFORMATION REPORT NOV. 2016

Hello ASC. Here is the current status for the PI projects I would like to see happen.

First- Get NA into at least one Jr. High or High School in the area.

After some research online, it appears the local schools prefer the approach of prevention to drug use over recovery programs like NA. So before I begin trying to reach out to our contact in the Hoquiam Schools, I will be seeking help from one or two NA members in the same field. Hopefully I can learn more and will be able to form a better strategy to get NA a foothold in local schools.

Second- Find more meeting spaces.

Once I get my literature order, I will begin by contacting the Harbor Ministers Fellowship. If they are open to the idea, I will set up a PI Presentation. My hope is to find more churches willing to rent meeting or event space to us.

Third- The Table of Ten.

This Presentation was a suggestion from Bill J. He would like the members of this group to have a better understanding of the NA Program. If he and I can not make this happen, Bill is also interested in a Presentation for his clients. This could into a semi regular panel. I am open and eager for either of these ideas.

Lastly, I would like to hold another PI Orientation next month. So long as H&I can spare the time, at around noon or 12:30 anyone interested in being involved with these projects is welcome and encouraged to attend. (This will be similar but not the same as the PI Booth Orientation.)

In loving Service,

John C
